

Roboshot Transmix 5000 CIGAR

The world's most compact, low-profile mobile concrete mixer, specifically engineered for underground mining conditions.

The Transmix features multi-mode, 4-wheel hydrostatic steering. It is capable of reaching speeds of up to 25km/h and handling 1:6 inclines with ease, even when fully laden with 5 cubic meters of concrete.

Compact and manoeuvrable, the Transmix is able to carry all the materials needed to support shotcreting operations performed by its stablemates, the Jacon Roboshot Maxijet.

A COMPLETE AND UNIQUE SOLUTION TO BATCH MIXING AND TRANSPORTATION OF CONCRETE IN MINES AND TUNNELS

Specifications

- Mercedes Diesel engine rated at 205KW @ 2500 RPM
- Hydrostatic 4 wheel drive transmission
- Leaf spring suspension
- Clark-Hurth 276 steering axles
- Four Wheel Hydrostatic Steering from front and rear cabins
- SAHR Parking Brake with quick release
- Hydraulically applied four wheel internal wet disc brakes
- Catalytic converter
- 12.00 X 20, 20 ply tyres "wide wall"
- Full operating controls from front and rear cabins
- 25 km/hr road speed
- Full road lighting/Warning strobe lights
- Operating and parts manual
- Water pump and tank
- 5.0 cubic meter capacity, double spiral blades, hydraulic drum chute tilting and capable of batch mixing

Turning circle

- 11m approx

Tare weight

- 10.760 kgs

Dimensions

- Length: 8.24m
- Width: 2.267m
- Height: 2.166m
